Mr. Bob Nunn
Creative Carriage Ltd.
330 Sheldon Dr.
Cambridge ON
N1T1A9

Dear Mr. Nunn:

The following is in response to your most recent submission of certification documents, submitted as evidence of compliance to the requirements of the *Motor Vehicle Safety Act* for buses you wish to import into Canada. The vehicle manufacturer is identified as Arboc Mobility, of Middlebury IN, and the vehicles are constructed on a General Motors incomplete (cutaway) chassis.

We have completed our review and are hereby returning your documents. Please note that we have updated our importation “pre-clearance” database to reflect the admissibility of these new models. If you wish to verify the information contained in our database, it is accessible on our website at the following address:
